

BVS Vision Sensor Starter Kit **Get started with everything in one box**

Have you ever experienced this: You ordered an advanced sensing product and connecting cable, but during your setup, you realize that the parameterization cables and mounting brackets you need aren't there?

This is why we have integrated the BVS vision sensor with its accessories in a single package. You only have to order one part and you have everything you need for basic operation of the BVS sensor. The BVS starter kit contains a vision sensor in a model of your choosing, a software CD and operating instructions, basic mounting brackets and installation accessories, a power cable, and a parameterization cable. With this kit, you only have to connect a 24-V power supply unit and you're ready to get started. If you do not happen to have a power supply unit, Balluff can even provide this as well. These kits are available with both visible red or infrared model options and in all three types: Standard, Universal, or Identification. These kits are also great to keep around as a quick-start testing kit for other applications you may have.

Ordering code	Part number	Description
SET012P	BAV BP-PH-00022-01	Standard series, 6-mm lens, contains red light sensor
SET0121	BAV BP-PH-00068-01	Standard series, 6-mm lens, contains infrared light sensor
SET012M	BAV BP-PH-00020-01	Standard series, 8-mm lens, contains red light sensor
SET0122	BAV BP-PH-00069-01	Standard series, 8-mm lens, contains infrared light sensor
SET012N	BAV BP-PH-00021-01	Standard series, 12-mm lens, contains red light sensor
SET0123	BAV BP-PH-00070-01	Standard series, 12-mm lens, contains infrared light sensor
SET0128	BAV BP-PH-00076-01	Identification series, 6-mm lens, contains infrared light sensor
SET012J	BAV BP-PH-00017-01	Identification series, 8-mm lens, contains red light sensor
SET0129	BAV BP-PH-00077-01	Identification series, 8-mm lens, contains infrared light sensor
SET012K	BAV BP-PH-00018-01	Identification series, 12-mm lens, contains red light sensor
SET012A	BAV BP-PH-00078-01	Identification series, 12-mm lens, contains infrared light sensor
SET014U	BAV BP-PH-00092-03	Universal series, 6-mm lens, contains red light sensor
SET0150	BAV BP-PH-00092-07	Universal series, 6-mm lens, contains infrared light sensor
SET014R	BAV BP-PH-00092-01	Universal series, 8-mm lens, contains red light sensor
SET014Y	BAV BP-PH-00092-05	Universal series, 8-mm lens, contains infrared light sensor
SET014T	BAV BP-PH-00092-02	Universal series, 12-mm lens, contains red light sensor
SET014Z	BAV BP-PH-00092-06	Universal series, 12-mm lens, contains infrared light sensor

Contains vision sensor, mounting bracket, installation accessories, connector, software CD and operating instructions
